I IL GUSTO ITALIANO NEL DESIGN

Un mondo di idee che non rinuncia mai alla praticità: in questa frase è concentrata la vocazione di Bolis Italia, azienda che fin dal nome testimonia chiaramente la sua identità. Un impegno nato per volontà di una famiglia molto propositiva e sviluppato grazie alla creatività tutta "made in Italy" di progetti che sanno conciliare fantasia e funzionalità, originalità e stile. Un mondo di forme che unisce solidi valori tecnologici all'estro del nuovo design contemporaneo, in un dialogo che oggi vede come protagonista la seconda generazione imprenditoriale della famiglia Bolis. Oggetti e soluzioni per vivere meglio ogni ambiente, dalla casa all'ufficio al negozio, con una vera e propria specializzazione per tutto quanto è sostegno, aggancio, punto di riferimento. La filosofia Bolis Italia si ritrova in ogni prodotto Bolis Italia, portatore di valori ambiziosi ma entusiasmanti: cambiare l'immagine di certe abitudini con la ragione della qualità e del buon gusto.

GB ITALIAN STYLE AND DESIGN

A world of practical ideas: this phrase sums up Bolis Italia's vocation, a company whose very name clearly marks its identity. It is a business created by an inventive family and developed thanks to innovative 'made in Italy' concepts, projects that combine imagination with practicality, and originality with style. A world of structures that merges solid technological values with the vision of contemporary new design, in an exchange that now involves the second generation of entrepreneurs from the Bolis family. Products and solutions suitable for any setting, from the home to the office or the shop, specialising in supports, fixings, fittings. The Bolis Italia philosophy is to be found in every Bolis Italia product. A company that has ambitious but appealing values: to change the appearance of certain habits with excellence and flair.

D DESIGN GANZ IM ITALIENISCHEN STIL

Eine Welt voller Ideen im Zeichen der Zweckmäßigkeit: dieses Motto umschließt die Vokation von Bolis Italia - ein Unternehmen, dessen Persönlichkeit sich bereits im Firmennamen abzeichnet. Eine Aufgabe, die sich auf den Unternehmensgeist einer zielstrebigten Familie gründet und sich dank seiner kreativen Projekte "Made in Italy" entwickelte, durch die Phantasie mit Zweckmäßigkeit zu Originalität und Stil vereinigt wurden. Eine Welt voller Formen, in der solide technologische Werte mit der Inspiration des neuen zeitgenössischen Design zu einem Dialog zusammengeführt werden, in dessen Mittelpunkt heute die zweite Unternehmergeneration der Familie Bolis steht. Objekt und Lösungen für alle Umgebungen, die das Leben leichter machen - zu Hause, im Büro bis hin zum Geschäft - eine wirkliche Spezialisierung auf alles was mit Stützen, Anhängen und Ansatzpunkten zu tun hat. Die Firmenphilosophie von Bolis Italia spiegelt sich in allen Produkten der Bolis Italia wider, die Träger von ambitiösen, aber begeisternden Inhalten sind: den Ausdruck gewisser Gewohnheiten durch den Sinn von Qualität und Geschmack ändern.

F LE GOÛT ITALIEN DANS LE DESIGN

Un monde d'idées qui ne renonce jamais au côté pratique: dans cette phrase, se retrouve la vocation de Bolis Italie, une entreprise qui clame haut et fort son identité. Un engagement né de la volonté d'une famille très imaginative et développé grâce à une créativité toute "made in Italy" de projets qui savent concilier fantaisie et fonctionnalité, originalité et style. Un monde de formes qui réunit de solides valeurs technologiques et l'inspiration du nouveau design contemporain, dans un dialogue qui voit aujourd'hui comme protagoniste la deuxième génération de chefs d'entreprise de la famille Bolis. Des objets et des solutions pour mieux vivre dans n'importe quelle ambiance, de la maison au bureau ou au magasin, avec une véritable spécialisation dans tout ce qui est soutien, accrochage, point de référence. La philosophie de Bolis Italie se retrouve dans chaque produit Bolis Italie, porteur de valeurs ambitieuses mais passionnantes : changer l'image de certaines habitudes avec la raison de la qualité et du bon goût.

E EL GUSTO ITALIANO EN EL DISEÑO

Un mundo de ideas que nunca renuncia a la practicidad: esta frase concentra la vocación de Bolis Italia, empresa que ya con su nombre testimonia claramente su identidad. Un trabajo que nació por voluntad de una familia bien emprendedora y se desarrolló gracias a la creatividad totalmente italiana de diseños que saben combinar la fantasía con la funcionalidad, la originalidad y el estilo. Un mundo de formas que une a sólidos valores tecnológicos con el talento del nuevo diseño contemporáneo, en un diálogo en el que hoy es protagonista la segunda generación empresarial de la familia Bolis. Objetos y soluciones para gozar de todos los ambientes, la casa, la oficina o la tienda, con una verdadera especialización en todo lo que es sostén, enganche, punto de referencia. La filosofía Bolis Italia se encuentra en todos los productos Bolis Italia, portadora de valores tanto ambiciosos como apasionantes: cambiar la imagen de ciertas costumbres con la razón de la calidad y del buen gusto.

I PRODUTTORI DI CERTEZZE

Creatività e fantasia non bastano a fare un'azienda di successo. La forza delle idee va sostenuta con valori profondi. Per Bolis Italia ciò significa l'esperienza e le attenzioni di chi, dal 1967, realizza direttamente i propri prodotti, li controlla, li fornisce con tutta la garanzia del dialogo personale, quello che solo chi vive in officina può assimilare e trasmettere. Stare al passo con i tempi senza rinunciare a certi principi: così Bolis Italia si è fatta strada e continua a crescere anche in mercati diventati sempre più dinamici e competitivi. Grazie a macchine ed impianti costantemente all'avanguardia, certamente, ma soprattutto grazie a persone che sanno ancora cosa significa passione per il proprio lavoro. Forse è per questo che il dialogo nasce spontaneo. E sempre per questo i prodotti Bolis Italia, esprimono "un'anima" che non è solo... di metallo!

GB PRODUCERS OF GUARANTEES

Creativity and imagination are not sufficient to create a successful company. Strong ideas must be supported by profound values. For Bolis Italia this means the experience and the skill of a company that manufactures all its own products, checks them, supplies them with the personal guarantee that only the person who 'lives' in the workshop can understand and convey. Keeping up with the times without renouncing its sound principles: this is how Bolis Italia has surged ahead and continued to grow in markets that are increasingly dynamic and competitive. Thanks to constantly updated machinery and systems, without doubt, but above all thanks to the staff who still know what being passionate about their work means. Perhaps this is why it comes naturally to us to communicate. And this is why Bolis Italia products express "a spirit" ...that is not just metal!

D HERSTELLER VON GEWISSEITEN

Kreativität und Phantasie allein genügen nicht, um ein Unternehmen erfolgreich zu machen. Ideenreichtum muss mit tieferen Werten ergänzt werden. Für Bolis Italia bedeutet dies die Erfahrung und Aufmerksamkeit derer, die seit 1967 direkt mit der Herstellung, der Kontrolle und der Lieferung der firmeneigenen Produkte betraut sind und sich auf einen persönlichen Dialog, der nur in der Werkstatt selbst assimiliert und weitergegeben werden kann, gründen. Mit der Zeit gehen, ohne dabei auf gewisse Prinzipien zu verzichten: dies ist der Weg zum Erfolg von Bolis Italia und so ist auch in zunehmend dynamischen und wettbewerbsfähigen Märkten ein kontinuierliches Wachstum möglich. Sicherlich dank der hochentwickelten Maschinen und Anlagen, aber vor allem auch dank der Mitarbeiter, die noch mit Leidenschaft an die Arbeit gehen. Vielleicht ist das der Grund für einen spontanen Dialog. Und deshalb haben die Produkte von Bolis Italia "eine Seele" und sind nicht nur Objekt aus Metall!

F DES PRODUITS SÛRS

Créativité et imagination ne suffisent pas à faire le succès d'une entreprise. La force des idées doit être soutenue par des valeurs profondes. Pour Bolis Italie, cela signifie l'expérience et les attentions de qui, depuis 1967, réalise directement ses produits, les contrôle, les livre avec toute la garantie du dialogue personnel, ce dialogue que seul celui qui vit dans les ateliers peut assimiler et transmettre. Rester au goût du jour, sans pourtant renoncer à certains principes: c'est ainsi que Bolis Italie a tracé son chemin et continue à se développer également sur des marchés devenus toujours plus dynamiques et compétitifs. Grâce à des machines et à des équipements d'avant-garde sans aucun doute, mais principalement grâce à des personnes qui savent encore ce que signifie la passion pour leur travail. Peut-être est-ce la raison pour laquelle le dialogue qui naît est spontané. Et toujours pour la même raison, les produits Bolis expriment leur "âme" qui n'est pas seulement... en métal!

E PRODUCTORES DE CERTEZAS

Creatividad y fantasía no son suficientes para que una empresa tenga éxito. La fuerza de las ideas hay que apoyarla con valores profundos. Para Bolis Italia esto significa la experiencia y las atenciones de quien, desde 1967, realiza directamente sus propios productos, los controla, los suministra con toda la garantía de un compromiso personal, lo que sólo quien vive en el taller puede transmitir. Estar al paso con el tiempo sin renunciar a ciertos principios: así Bolis Italia se ha construido su camino y sigue creciendo también en mercados cada vez más dinámicos y competitivos. Gracias a máquinas e instalaciones constantemente a la vanguardia, por supuesto, pero sobre todo gracias a las personas que todavía saben lo que significa pasión por el propio trabajo. Tal vez es por eso que el diálogo nace espontáneo. Y por el mismo motivo los productos Bolis Italia expresan "un alma" que no es sólo... de metal!

I GIOVANI CON CREATIVITÀ DA VENDERE

Eccoli i ragazzi irresistibili della Bolis Italia: una nuova generazione di giovani designer che hanno saputo rapidamente imporsi all'attenzione per la fantasia dei progetti e per la coerenza con i valori aziendali. Dalla loro creatività sono nati prodotti innovativi nelle forme e utili nella funzione, capaci di portare una ventata di freschezza in ogni ambiente, con l'uso sapiente delle linee e dei colori (linea "Innova Design"). Idee mai fini a sé stesse, ma sempre orientate verso obiettivi precisi, dove la simpatia non rinuncia mai alla qualità, dove ogni particolare riconduce ad universi simbolici che riconciliano con la vita. Forme e disegni accattivanti, materiali e finiture ineccepibili: così un'idea diventa un'idea di successo. Perché in Bolis Italia anche il lavoro del designer scaturisce sempre da un contatto stretto con i reparti produttivi. Una ragione in più che li rende inimitabili.

GB YOUNG AND WITH ABUNDANT CREATIVITY

Here is the charismatic Bolis Italia team: a new generation of young designers that have immediately made a name for themselves with their imaginative projects and their understanding of the company values. From their creativity come the innovative, functional products designed to bring brio to any setting, with their shrewd use of shape and colour ("Innova Design" range). Ideas that are never accidental, that always have a precise goal, where appeal and quality go hand in hand, where every detail embraces universal symbols that make life easier. Attractive shapes and designs, exceptional materials and finishes: an idea that becomes a success. Because in Bolis Italia the work of the designers also derives from close contact with the production departments. Which is why they are unbeatable.

D JUNGE LEUTE MIT EINER MENGE KREATIVITÄT

Das sind sie, die unwiderstehlichen jungen Mitarbeiter von Bolis Italia: eine neue Generation junger Designer, die ihre Aufmerksamkeit schnell den phantasievollen Projekten und der Kohärenz unternehmerischer Werte zugewandt haben. Aus ihrem Einfallsreichtum entstanden Produkte mit innovativen Formen für zweckmäßige Funktionen, die durch den gewussten Einsatz von Formgebung und Farbgestaltung frischen Wind in alle Umgebungen bringen (Produktlinie "Innova Design"). Ideen, die nicht als Selbstzweck gedacht sind, sondern sich immer an präzisen Zielsetzungen orientieren - hier bedeutet Sympathie keinen Verzicht auf Qualität und alle Einzelteile stellen universelle Symbole dar, die auf das Leben selbst zurückzuführen sind. Ansprechende Formgebung und Design, einwandfreie Materialien und Verarbeitungen: so wird eine Idee zum Erfolg. Denn bei Bolis Italia entsteht auch die Arbeit der Designer aus einer engen Zusammenarbeit mit den Fertigungsabteilungen. Ein Grund mehr, der die Produkte unnachahmlich macht.

F DES JEUNES QUI ONT DE LA CRÉATIVITÉ À VENDRE

Les voilà, les jeunes irrésistibles de Bolis Italie: une nouvelle génération de jeunes designers qui ont rapidement su s'imposer à cause du caractère créatif de leurs projets et de leur cohérence avec les valeurs de l'entreprise. Leur créativité a donné naissance à des produits innovants dans leurs formes et utiles dans leur fonctionnalité, capables d'apporter une onde de fraîcheur dans chaque maison, par l'utilisation savante des lignes et des couleurs (ligne "Innova Design"). Des idées qui ne sont pas une fin en elles-mêmes, mais sont toujours orientées vers des objectifs précis, où la sympathie ne renonce jamais à la qualité, où chaque détail ramène à des univers symboliques qui réconcilient avec la vie. Des formes et des designs attirants, des matériaux et des finitions sans pareil: c'est ainsi qu'une idée devient une idée de succès. Car, chez Bolis Italie, le travail du designer aussi provient toujours d'un contact étroit avec la production. Une caractéristique supplémentaire qui les rend inimitables.

E JÓVENES CON CREATIVIDAD PARA DAR Y TOMAR

Estos son los chicos irresistibles de Bolis Italia: una nueva generación de jóvenes diseñadores que han sabido llamar a la atención rápidamente por la fantasía de sus proyectos y por la coherencia con los valores de la empresa. De su creatividad nacen productos innovadores en las formas y útiles en la función, capaces de aportar aire fresco en todos los ambientes, con el sabio uso de las líneas y de los colores (línea "Innova Design"). Ideas orientadas siempre hacia objetivos concretos, en donde la simpatía no renuncia nunca a la calidad, en donde cada detalle nos lleva hacia unos universos simbólicos que nos reconcilian con la vida. Formas y diseños cautivadores, materiales y acabados irreprochables: así una idea se convierte en una idea de éxito. Porque en Bolis Italia también el trabajo del diseñador arranca siempre de un contacto con los sectores de la producción. Un motivo más que los hace inimitables.

I CLASSICI CON BRIO

Il principale e più eclatante risultato dell'impegno trentennale di Bolis Italia è certamente quello di aver trasformato il concetto stesso di "reggimensola", di averlo fatto rientrare a pieno titolo nei complementi di arredo. Un obiettivo raggiunto con scelte molto precise rispetto alle forme, ai materiali e alla qualità di ogni procedimento costruttivo, avvalendosi anche della professionalità di progettisti dedicati specificatamente a tale compito. La riconosciuta, superiore qualità dei prodotti Bolis Italia significa massima affidabilità in ogni condizione d'impiego e, grazie ad un'ampia gamma di eleganti proposte in vari colori, capacità di armonizzarsi allo stile di qualsiasi arredamento, alla personalità di ogni ambiente. Le proposte della linea "Opera Design" svolgono spesso compiti di sostegno molto gravosi, eppure si distinguono sempre per un'inconfondibile ricercatezza estetica, dimostrando che la forza può essere anche elegante.

GB CLASSIC WITH STYLE

The principal and most notable result of Bolis Italia's thirty years of dedication to their business is certainly that of having transformed the concept of 'shelf brackets', making them furnishings in their own right. This is an objective achieved thanks to very precise decisions regarding the form, materials and quality of every production process, taking advantage of the professional skill of designers specifically dedicated to this task. The recognised superior quality of Bolis Italia products offers reliability in all situations, thanks to the wide range of elegant proposals in a variety of colours, capable of fitting into any furnishing style and the personality of any setting. The proposals from the "Opera Design" range are often subject to heavy loads, yet they stand out for their immediately recognisable sophistication, showing that strength can also be elegant.

D KLASSIKER MIT ELAN

Das bedeutendste und ekleanteste Ergebnis der dreißigjährigen Aktivität von Bolis Italia besteht sicherlich in der Wandlung des Konzeptes einer "Konsolenstütze" selbst, indem diese als vollwertiger komplementärer Einrichtungsgegenstand anerkannt wird. Dieses Ziel wurde durch präzise Entscheidungen im Bereich der Formgebung, der Materialauswahl sowie der Qualität der einzelnen Herstellungsverfahren wie auch durch den spezifischen Einsatz professioneller Planer erreicht. Die anerkannte hochwertige Produktqualität von Bolis Italia gründet sich auf maximale Zuverlässigkeit bei allen Einsatzbedingungen und die Fähigkeit, sich dank der umfassenden eleganten Produktpalette in unterschiedlichen Farben an die Stilrichtungen aller Einrichtungsgegenstände, das persönliche Erscheinungsbild aller Umgebungen anzupassen. Auch wenn die Lösungsvorschläge der Produktlinie "Opera Design" häufig zum Stützen schwerer Lasten eingesetzt werden, unterscheiden sie sich durch deren unverwechselbare ästhetische Gewähltheit und beweisen, dass Stärke auch Eleganz umschließen kann.

F CLASSIQUES AVEC BRIO

Le résultat le plus important et le plus éblouissant de l'engagement, depuis trente ans, de Bolis Italie, est certainement d'avoir transformé le concept même d' "équerre", de l'avoir fait entrer dans les compléments de décoration. Un objectif atteint avec des choix très précis de formes, de matériaux et de qualité dans chaque processus de fabrication, en s'appuyant également sur le professionnalisme des concepteurs qui se sont consacrés spécialement à cette tâche. La qualité supérieure et reconnue des produits Bolis Italie signifie une fiabilité maximale dans toutes les conditions d'utilisation et grâce à une large gamme de propositions élégantes dans différents coloris, la capacité de s'harmoniser avec le style de n'importe quel intérieur, avec la personnalité de chaque atmosphère. Les propositions de la ligne "Opera Design" doivent souvent soutenir des poids très importants, et elles se distinguent pourtant toujours par une recherche esthétique incomparable, en démontrant que la force peut également être élégante.

E CLÁSICOS CON BRÍO

El resultado principal y más evidente del trabajo de treinta años de Bolis Italia es sin lugar a dudas el haber transformado el concepto mismo de "sujeta-repisa", de haberlo incluido a pleno título en los complementos de decoración. Un objetivo logrado con decisiones muy concretas respecto a las formas, los materiales y a la calidad de todos los procesos constructivos, sirviéndose también de la profesionalidad de diseñadores dedicados a ello de manera específica. La reconocida calidad superior de los productos Bolis Italia significa máxima fiabilidad en todas las condiciones de empleo y capacidad de combinarse con el estilo de cualquier tipo de mobiliario y con la personalidad de cada ambiente gracias a una amplia gama de propuestas elegantes en varios colores. Las creaciones de la línea "Opera Design" a menudo desempeñan una función de sostén muy dura, y sin embargo se distinguen siempre por una inconfundible búsqueda estética, demostrando que la fuerza puede ser también elegante.

- I STUDIO LAYOUT PERSONALIZZATO PER IL PUNTO VENDITA**
Bolis Italia ha studiato e realizzato soluzioni espositive (espositori standard o personalizzati a seconda delle singole esigenze), supporti pubblicitari, attività promozionali, che permettono al punto vendita di consigliare gli acquisti, di migliorare la vendita e di organizzare al meglio il suo spazio espositivo. Attraverso queste strategie di marketing, il punto vendita è in grado di promuovere i prodotti e veicolare, in modo dinamico, le scelte del consumatore finale, fidelizzandolo e soddisfacendone i bisogni e gli obiettivi.
- GB CUSTOM LAYOUT PROJECT FOR THE RETAIL SHOP**
Bolis Italia studied and realized display solutions (standard displays or personalized displays, specifically studied for each single need), advertising supports, promotional activities, that allow the retail shop to suggest the purchasings, to ameliorate the sale and to organize, in the best possible way, its own space. Through these marketing strategies, the retail shop is able to promote the products and suggest, in a dynamic way, the final customer choices, having loyalty from his part, and satisfying his needs and targets.
- D DESIGN BENUTZERDEFINIERTES FÜR DEN HANDLER**
Bolis Italia hat Ausstellungslösungen (standardisierte oder angepasste Aussteller, nach Bedarf), Werbeständer und Werbeaktionen entwickelt und realisiert, mit denen die Händler den Kunden Empfehlungen geben können, den Verkauf fördern und ihren Ausstellungsraum optimal nutzen können. Mit diesen Marketingstrategien kann der Händler den Verkauf der Produkte fördern, und die Auswahl des Endkunden aktiv lenken, indem dieser gebunden und die Wünsche und Ziele erfüllt werden.
- F CONCEPTION LAYOUT PERSONNALISE POUR LE MAGASIN AU DETAIL**
Bolis Italia a étudié et réalisé solutions expositives (panneaux expositifs standard ou panneaux expositifs personnalisés selon les différentes exigences), supports publicitaires, activités de promotion, qui permettent au magasin au détail de conseiller les achats, d'améliorer la vente et de réorganiser au mieux son espace expositif. A travers ces stratégies de marketing, le magasin au détail est capable de promouvoir les produits et véhiculer, en manière dynamique, les choix du client, en le fidélisant et en lui satisfaisant les besoins et les objectifs.
- E DISEÑO LAYOUT PERSONALIZADO PARA EL PUNTO DE VENTA**
Bolis Italia ha estudiado y realizado soluciones de exposición (exposiciones estándares o personalizados según las exigencias de cada uno), soportes publicitarios, actividades promocionales, que permiten al punto de venta aconsejar las compras, mejorar la venta y organizar al máximo su espacio de exposición. A través de estas estrategias de marketing, el punto de venta es capaz de promover los productos y vehicular, de manera dinámica, las elecciones del consumidor final, fidelizándolo y satisfaciendo las necesidades y objetivos.
