HARDWARE FOR SHUTTERS

1. Orders

All the orders forwarded to Alban Giacomo spa and the discount and supply conditions thereof are subject to the approval of the Company, also in the case which they are issued by Agents of Auxiliary Staff operating on behalf of Alban Giacomo spa. Telephone or voice orders shall be deemed as accepted exclusively when the relevant order confirmation has been forwarded to the Client The possibility to make additions to orders that have been already forwarded shall be subject to the processing status of the order and shall be from time to time verified by contacting our Sales Office.
Alban Giacomo spa shall not be responsible of eventual errors in the processing of the orders due to incomplete, missing or wrong indication of the Item Code. With regards to not listed products, the Client shall pre-emptively request a written offer from our Sales Office.
The contractual relationship arising from the stipulation of the order is governed by the present general sale conditions.
Eventual derogations or added conditions shall be effective only if agreed in writing.
The execution of the sale shall be subject, in any case, to the acceptance of the general conditions as set forth hereinafter, that the Client, by means of the issue of the order, declares to know.

Changes to the systems orders will be accepted only if they will be requested to AGB Commercial Office within 10.00AM of the working day next to the order confirmation date; otherwise, please contact our Commercial Office to check modification possibility.

2. Modifications to the products and validity of information

In order to guarantee a constant improvement of the products, Alban Giacomo spa reserves the right to apply the required modifications to the product, in any moment and without prior notice. Data and images contained in the list and in the whole AGB documentation shall be therefore deemed to be valid, print errors and any modification made by the company excepted.

3. Prices

The listed prices are expressed in Euro, net of VAT and may be subject to modifications, also upon delivery, due to sudden modifications of the cost elements.

4. Out of package

The prices always refer to products in standard package and packaging, the quantities thereof are stated in the List. For orders amounting to smaller quantities than the package, Alban Giacomo spa reserves the right, under its discretion and without prior notice, to increase the order up to the quantity of the package, or to apply a 10% price increase depending on the Item and on the packaging features. Moreover, all the orders the ordered quantity thereof is close to the standard packaging may be rounded to the package quantity.

5. Packaging

The original packaging is included in the price. The packaging for postal deliveries or eventual special packaging shall be charged at cost. The pallets and the hinges chargers included for shipping the goods are property of Alban Giacomo spa and they shall be made available for collection, by our forwarders, according to the times and procedures set forth by the AGB Sales Office: if you will not return them within the end of the year, we will charge the costs.
The hinges chargers must be returned in the dedicated packaging which we supplied, in case of missed return, or damaged chargers, we will debit 0.50 € per piece.
On the other hand, packaging returns are not accepted.

6. Delivery Dates

The delivery time eventually agreed shall be deemed as a non-essential term, and, as such, it shall not bind the seller. The delivery date, even if confirmed, represents a mere indication and it shall always be understood as the best estimate. No warranty and no indemnity are due for the failed or late delivery of the goods within the limits provided by the company or requested by the Client.
With regards to the items marked in the list with an appropriate sign, the Client is obliged to pre-emptively verify the availability thereof and the minimum order quantity by contacting the AGB Sales Office.

7. Balances

Eventual balances of the order shall be processed, as soon as they are available, with the first following order of the Client. Alban Giacomo spa reserves the right to round up the balance to the standard package quantity or to cancel the balance in the case that no order or delivery remainder is forwarded within four months.

8. Minimum order value

The minimum order value is 2000 Euro. For orders of a lower amount, a 20 Euro surcharge shall be invoiced for order handling costs.

9. Delivery

Ex-works AGB Cassola.

10. Transport Risks

The goods, even if transported by a freighter, are shipped always on behalf, at risk and danger of the Client. Alban Giacomo spa shall not take any responsibility for delays, tampering, or for any other fault occurred during the shipping. Any responsibility of Alban Giacomo spa ceases upon delivery of the goods to the Freighter. It shall be interest of the Client to verify the condition and the compliance of the goods upon delivery, forwarding any eventual complaint as provided in the following point.

11. Complaints

Eventual complaints regarding the shipping data of the received supply shall be forwarded to the Alban Giacomo spa headquarters by fax, e-mail or registered letter, not later than the eight day from reception of the goods by the Client. Eventual complaints forwarded later than the set term and differently than the ways provided above shall not be taken in consideration.

12. Returns

Eventual returns of goods shall be pre-emptively authorised in writing and accompanied by the communications of the Client referring to the invoice or the delivery note subject to verification of the goods arriving to Alban Giacomo spa.
An authorization copy must be attached on a visible position, otherwise the returned gods will be not accepted.

13. Payments and interests - termination

The terms and conditions for payment are listed in the special sale conditions and thus shown in the invoices. Only the payments made directly to Alban Giacomo spa or through extinction of drafts issued thereby, always intended with the "subject to collection" clause, shall be effective.
In case of delayed payment with respect to the agreed deadlines, unless differently agreed, an interest on arrears calculated according to the rate provided by art. 5 Legislative Decree October 9th 2002 no 231 shall accrue automatically without any formal warning.
In the case which the sale of the goods implies an extended payment, the sale thereof is performed subject to retention of title in favour of the selling Company up to full payment of the agreed price, in addition to the ancillary expenses, also as set forth by art. 1523 Italian Civil Code.
From the date of delivery, therefore, the Client shall be charged with the risks, dangers and consequences deriving from eventual thefts, fire, Acts of God, damages to persons, goods or whatever and the Client himself, notwithstanding the occurring thereof, shall comply with the agreed obligations and payment modes.
The extension of the payment of the full due price is granted - if requested - under discretion of the selling Company and - if agreed - against suitable guarantee. The failed payment within the agreed terms even of one instalment only that exceeds the eight part of the sale price, or the failed payment of two instalments within the agreed terms shall entitle the selling Company to hold this agreement as legally terminated.

14. Suspension or cancellation of the orders

In case of breach, also partial, of one of the general conditions provided for the supply, as well as in case of acknowledged difficulty in the payments or may the guarantees for the solvency of the Client or, more generally, the economic capacity thereof become missing or diminish, the selling Company shall have the unquestionable right to suspend or cancel the orders, even if confirmed.

15. Warranty

Alban Giacomo spa guarantees that the sold product is free from faults and is suitable for the use it has been intended (art. 1490 Italian Civil Code), provided that the Client strictly follows the assembly, adjusting and use instructions contained in the technical documentation that could be requested from the AGB Sales Office. The warranty shall not apply if the improper use or conservation of the product is assessed, or if it has been damaged, modified or not installed up to standard. The warranty covers exclusively the functioning of the hardware components excluding any other cause or fault, aesthetic included.
The guarantee has a duration of 1 year starting from the date of invoicing and it shall be effective provided that the complaint is forwarded as laid out in the "Complaints" point.
The warranty covers exclusively the replacement of the product with another having a similar operation excluding any further or different damage.

16. Governing Law

This agreement is governed by the Italian Laws. For whatever is not expressly agreed, the parties shall jointly refer to the rules and regulations currently in force.

17. Jurisdiction and venue

The Vicenza Court shall have the exclusive jurisdiction on any dispute.

18. Personal Data processing

Alban Giacomo spa informs that the acquired identification data of the Client, operation required for the purposes of the order confirmation and stipulation of the agreement, are subject to processing, automated as well, aimed to the execution of the agreement and of all the obligations strictly functional thereto, as better specified in the provided information note The Client authorises therefore the processing thereof as set forth by Legislative Decree 196/2003.

(Stamp and Signature of the Buyer) Date

As provided by articles 1341 and 1342 Italian Civil Code, the Client declares to expressly accept the following general conditions 1. Orders; 2. Modifications to the products and validity of information; 3. Prices; 6. Delivery Dates; 8 Minimum order value; 9. Delivery; 10. Transport Risks; 11. Complaints; 12. Returns; 13. Payments and interests - termination; 14. Suspension or cancellation of the orders; 15. Warranty; 16. Governing Law; 17. Jurisdiction and venue.

Special key systems

MK - Master Key system

Every cylinder can be opened by its own key which cannot open any other cylinder of the system. All the cylinders can be opened by the MK management key.

(*) Service key not for model 600.

GMK - General Master Key system

Same as the management key system but in two or more groups. Every group of cylinders can be opened by its own service key. All the cylinders of the system can be opened by the GMK grand management key.

CCMK - Central Cylinder System and Master Key

Every cylinder has it own key which cannot open any other cylinder of the system, except the central system. All the cylinders of the system can be opened by the MK management key.

(*) Service key not for model 600.

(*) CODE to be indicated in the order; PRICE for each key
Note: The expansion of existing systems is considered as specimen coding.
At the time of the first order, indicate whether a future expansion may be required for the systems, otherwise specimen coding for the systems could not be possible.
For systems other than the ones indicated, please contact our Sales Department.
The good operation of the cylinders is guaranteed only with original AGB keys.

The cylinder systems will be shipped carriage paid and the shipping fees charged to the customer's account if the value of the systems is less than 1000 Euro.

System cylinders are supplied without the fastening screw.

Changes to the systems orders will be accepted only if they will be requested to the AGB Export Dept. within 10.00am of the working day next to the order confirmation date; otherwise, please contact our Sales Dept. to check any other possibility to modifications.

Order specifications for electric strikers

Client: ..... Order date: ..... Order no.: ..... Requested delivery date: .....

FILLED IN BY THE INSTALLER

put a cross to choose the options

BADGE READER PULSE DURATION		< of 3 seconds (with repeater recommended)	
		> of 3 seconds (without repeater recommended)	
FEEDING TENSION [V] RESISTANCE [Ω] CURRENT INTENSITY [mA] ***Warning!*** *The electric strikers are silent when feeded with AC current, they buzz lightly, as the 50 Hz AC current can be heard.*	Normal absorption	12V CA • 7,7 Ω • 1100 mA	
		12V CC • 7,7 Ω • 1560 mA	
		12V CA • 17 Ω • 440 mA	
		12V CC • 17 Ω • 650 mA	
	Low absorption	12V CA • 60 Ω • 130 mA	
		12V CC • 60 Ω • 200 mA	
		24V CA • 235 Ω • 70 mA	
		24V CC • 235 Ω • 105 mA	
		12V CC • 58 Ω • 200 mA • diode	
DIODE TO PREVENT INDUCTIVE OVERFEEDING?*		YES	
		NO	
LONG LASTING FEEDING IS REQUIRED? (e.g. offices entrance doors opened for 8 or more hours)		YES (low absorption recommended)	
		NO	

FILLED IN BY THE DOOR PRODUCER OR THE BUILDING EXECUTIVE

put a cross to choose the options

MANUAL RELEASE LEVER IS REQUIRED? (e.g. to allow cleaning personnel to enter the room without using the badge every time)	YES
	NO
LONG WING PLATE SUITABLE FOR REBATED REI DOORS	YES
	NO
HALF WING PLATE SUITZABLE FOR REBATED DOORS	YES
	NO
HALF WING PLATE FOR TELESCOPIC COVER SUITABLE FOR REBATED DOORS	YES
	NO
PLATE FOR FLUSH DOORS	YES
	NO
QUANTITIES FOR RIGHT-HAND DOORS ACCORDING TO DIN 107	
QUANTITIES FOR LEFT-HAND DOORS ACCORDING TO DIN 107	
FINISH (RE*fer to pricelist in force to verify availability)*	
REI DOORS HIGH ACUSTIC ABSORPTION (GASKETs make high pressure of the latch on the mobile wing**)	YES (normal absorption recommended)
	NO

*Electrical devices with diode work on DC current only: availability with feeding tension on 12V DC and low absorption (200 mA)

**WARNING: beyond 18N of latch pressure on the wing of the striker, it is necessary to feed the low absorption devices on AC. Beyond 80N it is not allowed the use of low absorption electric strikers any more.

NB. *When designing the dimensions of the transformer and the feeding cables you must take into consideration the tension falling of the cables. In order to guarantee the correct working of the electrical strikers you need to comply with the values indicated in the proper technical catalogs pages.*

AGB *makes cylinders for all sized doors!*

... from XS to XXXL

It is possible to order made-to-measure cylinders for all doors and lengths up to 175 mm on each side, at 5 mm intervals.

CYLINDERS AND ACCESSORIES RANGE

Complete range of Euro-profile security cylinders. They have been produced according with the regulation EN 9570.
The cylinders SCUDO and PS offer high levels of passive and active security.
AGB cylinders include flat non-handed keys in brass and silver for a better torsion resistance.

GUIDE FOR THE CYLINDER CHOICE

To identify the most suitable cylinder for your needs, we introduced an easy diagram for every available cylinder.

ANTI-BURGLAR
It indicates the resistance level to the attack with the anti-burglar methods known until now and considered by the regulation EN 1303.

SYSTEMS
It indicates the number of possible combinations for every cylinder according with the regulation EN 1303 and the level of difficulty in the key duplication.

DURATION
It indicates the cylinder resistance in relation to the number of opening and closing cycles in compliance with the regulation EN 1303.

FINISH
It indicates the resistance level to thermal and climate stresses, as provided by the regulation EN 1303. This parameter considers the corrosion resistance in order to keep the right functioning onward.

The evaluation of every cylinder is based on certified test results provided by the regulation EN 1303, integrated with the results of strict tests done in the Research & Development Laboratory AGBLab.

Scudo DCK key duplication

HOW TO OBTAIN A DUPLICATION OF THE PATENTED SCUDO DCK KEY

1. Take one of the envelopes with the PIN codes provided with the cylinder. Check that the serial number on the envelope is the same as the one on the key to be duplicated.

2. Give the envelope to your trusty Dealer, specifying the desired number of duplicates.

3. The Dealer will send to AGB the duplication request together with the PIN code and the serial number, using the proper form at the end of this chapter.

4. AGB will check that the PIN code is valid and that it has never been used before: if yes, AGB will make the key duplicates and will deliver them to the Dealer within a sealed envelope.

5. The sealed envelope containing the keys will be handed over to you by the Dealer.

6. Within the envelope you will find the key duplicates and the duplication Report, with the data of all the duplications made since the cylinder has been purchased.

Special key systems

KA - Key Alike System

All the cylinders have the same differ and can be opened only by one key.

MK - Master Key system

Every cylinder can be opened by its own key which cannot open any other cylinder of the system. All the cylinders can be opened by the MK management key.

GMK - General Master Key system

Same as the management key system but in two or more groups. Every group of cylinders can be opened by its own service key. All the cylinders of the system can be opened by the GMK grand management key.

CC - Central Cylinder System

Every cylinder has its own key which cannot open any other cylinder of the system. All the keys of the system can open the cylinder of the central lock.

CCMK - Central Cylinder System and Master Key

Every cylinder has it own key which cannot open any other cylinder of the system, except the central system. All the cylinders of the system can be opened by the MK management key.

Note. For half-cylinders and cylinders with knob/tang 50% deduction price

Note: The expansion of existing systems is considered as specimen coding.
At the time of the first order, indicate whether a future expansion may be required for the systems, otherwise specimen coding for the systems could not be possible.
For systems other than the ones indicated, please contact our Sales Department.
The good operation of the cylinders is guaranteed only with original AGB keys.

System cylinders are supplied without the fastening screw.

Changes to the systems orders will be accepted only if they will be requested to the AGB Export Dept. within 10.00am of the working day next to the order confirmation date; otherwise, please contact our Sales Dept. to check any other possibility to modifications.

PASS key building yard UNICA			C94300.25.01	€ 5,705

Cylinder with SINGLE PASS key: every cylinder includes a key for building yard ("PASS" carved in the neck of the key) and 5 owner's keys. The PASS key opens the cylinder until the inserting of the owner's key which definitely cancels the PASS key.
The extra charge has to be added to the price of the cylinder.

System with UNICA PASS key: The UNICA key ("PASS" carved in the neck of the key) opens all the cylinders of the system until the inserting of the owners's keys. Every cylinder included in the system has 5 owner'w keys inserted in a sealed packet. Numbered labels will allow to combine the packet of owner's keys with every cylinder without mistakes.

The extra charge has to be added to the price of the cylinder.

When no Master key is included in the system of cylinders, AGB recommends to use cylinders with SINGLE PASS keys.

System cylinders are supplied without the fastening screws.

24															

Note:

Example of special key system with gerarchy and with 23 DCK cylinders opened by 1 Grand Master Key and 7 Master Keys ("7 floors").
In this instance the Owner has the GMK that opens all the cylinders; every Depatment Manager has a MK that opens the officies of his "floor" or competency and the central entrance (central).
The common entrace (centralized "C") in open by the GMK (key) and MK1, MK2, MK3,...,MK7 (keys); on the other side the cylindr of reserved parking places is opened by GMK, MK1, MK2, ... , MK4, by the commercial manager cylinders key and by the key of the cylinder of Tecnical Room. All of them are identified with D in culum CC (reference "D"). In the example there are also couple of cylinders (named "A" and "B") with KA coding.

Instructions for filling the form

CYLINDERS (ROWS)
Cylinder description: indicate a reference for every cylinder (e.g. entrance, garage, office A, office B etc.)
Cylinder code: report the AGB code, as indicated in the price list (ref. key-key, with knob, Opera etc.)
Cylinders quantity: Quantity of the same model of cylinders with the same dimension/finish
KA: only for KA systems . Assign a letter or a progressive number to every group of cylinders with the same key and report here, for every cylinder the letter or the number.

CC:only for CC and CCMK systems. Assign a letter or a progressive number to every group of cylinders that operate on the Central cylinder and report here, for each cylinder the letter or the number.
N° of keys for every cylinder : fill in ONLY if the key quantities are different from standard quantity.
Key marking: To fill in only if required. It implies an extra charge. 12 caracters maximum.

MASTER KEYS (columns)
Key marking: To fill in only if required. It implies an extra charge. 12 caracters only.
Opening of every Master key: indicate a reference for every MK (eg. CEO, Services, Maintainence, etc)
Master key q.ty: amount of this type of master key

CROSSING CYLINDERS / MASTER KEYS "MK"
Indicate the cylinders that have to be opened by every MK key. A X must be marked where the row of the cylinder crosses the column of the Master key MK.

* In the GMK systems specify when passing the 1st order the necessity of eventual coming extensions (eg. new floors to be opened with different
** to be filled in only if the quantity of PASS key + owner keys is different from the standard "1+5". all variant codes will be considered ONLY on the basis of precise commercial indications previously agreed (eg. programmed orders).
*** Any other centralized cylinder have to be specified in the first order. Maximun q.ty of centralized cylinder in different config can't be more than 3. If necessary to have more centralized cylinders, these ones have to be in KA system.
**** Supplied with "MK" key only, and without its oun key.
***** Will be applied a deduction of n°2 keys.

DIN 107 standard concerning door-hand

A door is defined as “right-handed” or “left-handed” when, from the opening side, the hinges are located on the “right” or “left”, respectively. AGB electrical strikers are defined right hand or left hand according to this rule:

Sicurtop Poseidon - 85 mm centre
